

In ALAE we believe that what cannot be measured, cannot be managed. Therefore, we want to help our clients to control the development and implementation of the projects that they entrust us.

For this purpose, hereinafter, we will submit a weekly summary regarding the implementation of projects with the purpose that each client knows their progress, as well as those aspects that require their attention or collaboration.

Obviously, this report only will refer to those works in progress, and it will be sent to those clients who simultaneously have several projects, in order to facilitate their control.

We hope that this new tool will be helpful to you and in favorably received. We remain at your disposal for any suggestions about it.

Best regards.
